

GripProtect® Vinyl Exam Gloves

Frequent glove changes call for the value and comfort of GripProtect

GripProtect Vinyl Exam Gloves are high quality, disposable gloves for when simple hand protection and reducing transmission of infectious agents are of primary importance. These gloves are made from durable, synthetic polyvinyl chloride (PVC) and offer a great option in settings where frequent changing of gloves is required.

Classified as Medical Exam Grade, the gloves are manufactured to meet the ASTM testing standards to protect healthcare professionals and their patients from infection. They are recommended for health, lab, food preparation and other uses that do not involve exposure to strong chemicals.

- Medical exam grade gloves
- Powder-free and latex-free
- Clear color, ambidextrous
- Easy to don with smooth inner surface
